JUSTICE DEPARTMENT, OTTAWA,
February 27, 1911.

SIR,—I transmit herewith statements of the binder twine industry at the Kingston penitentiary for the months of October, November and December, 1910, together with a report from Mr. Creighton of the Penitentiary Branch on the result of an actual stock taking, attached to which are statements prepared by the accountant of the penitentiary and himself with a view to accounting for a discrepancy of 12,837 lbs. of 600 ft. Manila twine, as between the actual quantity in the storehouse and that shown in the stock book and monthly statement for October.

I am, sir, your obedient servant,
E. L. NEWCOMBE, *D.M.J.*

The Auditor General.

R.R.C.

November 28, 1910.

MEMORANDUM FOR THE INSPECTORS.

I beg to report that in pursuance with your instructions, I have in company with the storekeeper of the institution, made an inventory of the stocks of the various grades of twine and rope at present in the storehouse at the Kingston penitentiary, with the following results, viz.:—

TWINE.

600 ft. Manila	301,210 lbs.
650 ft. "	236,525 lbs.
Sisal	102,245 lbs.
	639,980 lbs.

ROPE.

$\frac{3}{4}$ in. Mixed Manila	6,306 lbs.
$\frac{7}{8}$ in. "	6,896 lbs.
1 in. "	5,756 lbs.
$1\frac{1}{4}$ in. "	7,796 lbs.
	26,754 lbs.

A reference to the first attached statement (A) shows so slight a discrepancy between the amounts represented in the stock book and those actually on hand, that with the exception of the 600 ft. Manila, they may be said to agree. In this grade of twine, however, there are 12,837 lbs. less in the storehouse than the stock book and monthly statements show.

In an endeavour to throw some light on the discrepancy with the assistance of the accountant, I prepared a number of statements from the time the late

superintendent took charge, December, 1902, until the date of the last monthly statement signed by him, February, 1910, copies of which are attached. That (B) showing the weights of the various ingredients 3,461,610 lbs. used in the manufacture of 3,187,033 lbs. of twine shows a loss of 274,577 lbs., the inference is that the shrinkage is due to skutchings from the hemp used, 2,971,694 lbs., the evaporation from oil, of which there is more or less, and oil used in the manufacture of rope. It was impossible to separate the quantity of this ingredient used in the manufacture of rope from that used in twine, as both rope and twine machines were frequently running at the same time and the oil was drawn from a common source.

The next statement (C) "Material used in manufacture of rope and weight of rope produced," shows an increase of 33,541 lbs. on 367,649 lbs. of material used. This increase is largely made up of oil, and skutchings and other waste material from the hemp in course of preparation for twine.

The next statement (D) requires no comments.

Following is a statement (E) showing that in February ,1904, there were 3,550 lbs. of 600 ft. Manila and 100 lbs. of sisal twine written out of stock. A memo of explanation to the warden will be found on the next sheet.

Next are copies (F) of the first and last statement signed by the late superintendent, showing the stocks of the various ropes and twine on hand in December 1902, and February, 1910.

The final statement (G) shows the increase in process of manufacture having reference to the hemp only, during the period covered by these statements. The twine shows an increase of 6·69% and the rope 9%. Whether these increases are normal, I am not prepared to say, as I do not know what it should be.

With reference to the shortage, I was unable to find anything that would throw definite light on the subject. If the increases mentioned above are normal, it would tend to show that an adequate quantity of twine and rope had been produced from the hemp used. If this be the case, it would lead to the supposition that the discrepancy is due to careless counting of the output of the factory into the storehouse. Another source of possible mistake is that more twine was used for rope than the twine account got credit for. The only other conclusion is that the twine was taken from the storehouse, no record made of it nor any cash received for it. I have no reason to suspect this, and would not even insinuate such a state of affairs without the strongest proof and I certainly have none.

ROBT. R. CREIGHTON.

Re Wharfs and Piers.

Audit Office, Ottawa, September 11, 1911.

Sir,—I inclose the following statements in connection with Wharfs and Piers Revenue:—

(1) Showing the net revenue by provinces for 1909-10 and 1910-11.

(2) Showing wharfs from which revenue came to account in 1909-10 and none in 1910-11.

(3) Showing wharfs where the revenue has largely decreased.

(4) Showing wharfs from which no revenue has come to account for years.

I wrote you in April last several letters concerning these wharfs, to which I have had no reply.

I purpose publishing this letter and will be glad to add any reply to this I may receive before the manuscript for your department goes to the printers.

I am, sir, your obedient servant,

The Deputy Minister of Marine and Fisheries. J. FRASER, *A.G.*

NOTE.—See letter to Minister Public Works, page V—433.

AUDIT OFFICE, OTTAWA, September 11, 1911.

SIR,—On January 7, 1910, you furnished a list of wharfs that had been transferred to your department since January 1, 1908.

From the following wharfs, included in this list, nothing has come to account.
Amaguadus Pond, N.S., transferred March 28, 1908.
Montreal East, Tarte Pier, P.Q., transferred June 30, 1908.
Country Harbour, N.S., transferred, October 24, 1908.
Rossport, Ont., transferred January 20, 1909.
Hopewell Hill, P.E.I., transferred June 29, 1909.
East Templeton, P.Q., transferred August 6, 1909.
Peterborough, Ont., transferred August 7, 1909.
Port Hastings, N.S., transferred November 22, 1909.
Please explain.

I am, sir, your obedient servant,

The Deputy Minister of Marine and Fisheries. J. FRASER, *A.G.*

Re Harbours Revenue.

AUDIT OFFICE, OTTAWA, September 11, 1911.

SIR,—Nothing has come to account from the following harbours during 1910-11, from which the amount set opposite each was received during the previous year.

Ontario—	
Amherstburg	$ 14 50
Fort William	181 40
Quebec—	
St. Johns	133 00

I am, sir, your obedient servant,

The Deputy Minister of Marine and Fisheries. J. FRASER, *A.G.*

Re Sick Mariners' Fund.

AUDIT OFFICE, OTTAWA, December 10, 1910.

SIR,—The last cash receipts covering the collection of Sick Mariners' Fund reached this office on October 26 last, making the total receipts received $34,625.34. Returns have also come to hand for $26,198.77, leaving a balance of $8,426.47 for which no returns have so far been furnished.

In some cases it is difficult to check the cash with the returns sent in by the collectors, as you include in your cash statements deposits beyond the month for which the collector renders his return.

At St. John the collector's return for April, accounts for $946.16, being the total collections for that month, while your cash statement No. 1 shows thirty-four deposits made from April 4 to May 13, inclusive, and amounting to $1,130.49. The other cash statements are made up in much the same way, which makes a great deal of work to check them with returns sent in by the collector. This would be avoided if your cash statements were sent in each month and included only the deposits covering the collections made at the different ports for the same month.

Regarding your present form of cash statement in which the names of all the ports are printed, I would suggest the single sheet with your present headings, but the names of the different ports to be written as occasion required. This would give all the room necessary to record the deposits from each port without crowding them so closely as to make it difficult to know the port to which they properly belong, as is often the case in the form you now use.

I am, sir, your obedient servant,

The Deputy Minister of Marine and Fisheries. J. FRASER, *A.G.*

AUDIT OFFICE, OTTAWA, November 29, 1910.

Re **Sale of Military Books.**

SIR,—It is found upon examination of the cash statements from your department for the current fiscal year, that amounts received from the sales of and subscriptions to military books are credited to militia revenue in some cases and to the appropriation for printing and stationery in the following, viz.:—

Statement No.	5—$2.35, $19.65, 90c.	$ 22 90
"	15—The first 18 items amounting to	230 16
"	20—$17.95 and $65.16.	83 11
"	24.	43 30
"	29—The last 14 items.	214 81
"	32.	28 05
		$622 33

Please make application to have these amounts transferred to the credit of militia revenue.

I am, sir, your obedient servant,

The Deputy Minister of Militia and Defence. J. FRASER, *A.G.*

DEPT. OF MILITIA AND DEFENCE, OTTAWA, December 1, 1910.

SIR,—In reply to yours of the 29th ult., requesting that moneys received for sales of military books be credited to militia revenue instead of printing and stationery, I have the honour to point out that the books in question are purchased and kept in store for the convenience of militia officers who buy as they require them from time to time; and that for the most part the purchase by the department and the sale of the book to the militia occur within a short period. It would, therefore, be unfair to this department to insist upon having these sales credited to militia revenue, as in so doing the expenditure under head of printing and stationery for this department would appear in the public reports very much greater than actually was the case.

I wish to explain further that your department was consulted some time ago in respect of this matter and concurrence obtained verbally before crediting these sales to printing and stationery vote.

I shall be glad if you will re-consider the question.

I am, sir, your obedient servant,

The Auditor General. EUG. FISET, *D.M. M. & D.*

AUDIT OFFICE, OTTAWA, December 3, 1910.

SIR,—I have received your letter of the 1st instant in reply to mine of November 29, in reference to the disposal of receipts from sales of military books.

You state as a reason why these sales should be credited to expenditure, that for the most part the purchase by the department and the sale of books occur within a short period; and that the crediting of these sales to militia revenue instead of to expenditure, would show the expenditure under printing and stationery very much greater than was actually the case.

The usual practice followed has been to credit to expenditure only the proceeds of the sales of articles charged thereto during the current year.

There does not seem to be any more reason for crediting the sales of these books to printing and stationery, than there would be to credit the sales of clothing to the vote for clothing and necessaries.

The expenditure for printing and stationery last year amounted to $39,998.70, so, even if the proceeds of the sales of military books were credited, the total would scarcely be reduced more than $1,000.

I am still of opinion that it would be more satisfactory and more in accordance with the usual practice, to credit these sales to revenue.

I am, sir, your obedient servant,

The Deputy Minister of Militia and Defence. J. FRASER, *A.G.*

AUDIT OFFICE, OTTAWA, December 10, 1910.

Re **Bread Sold.**

SIR,—Deposit receipt No. 166 on your statement No. 35, credited to Militia Revenue, Miscellaneous, is for bread sold, as follows:—

Quebec—

August, 1909	$15 39
September, 1909	23 04
October, 1909	22 83
November, 1909	20 33
December, 1909	18 23
January, 1910	15 43
February, 1910	14 36
March, 1910	16 47
	$146 08

This amount was not deposited until August 18 last.

Please let me have the explanation of the delay, as items of this nature should be disposed of at least once in each month.

I am, sir, your obedient servant,

The Deputy Minister of Militia and Defence. J. FRASER, *A.G.*

AUDIT OFFICE, OTTAWA, December 10, 1910.

Re **Lakeshore Property—Niagara.**

SIR,—With reference to deposit receipt No. 3969 for the sum of $729.17 on your statement No. 1, being the balance of the sales of crops from the Lakeshore property, Niagara, purchased for training grounds in 1907-8, after deducting the expenses from July 1, 1908, to February, 1910—a period of twenty months.

It appears that Mr. William Noble was appointed manager and took charge of the property on June 26, 1908. Please let me know what instructions were given him with reference to the management, selling of the crops and accounting for same.

The value of the field crop in 1908 is stated to have been as follows:—

First class hay—92 tons, value $10 per ton	$920
Rough hay—25 tons, value $5 per ton	125
Wheat, first class—230 bush. at 80c. per bush	184
Rye and damaged wheat	50
Straw, rye and wheat, 10 tons at $10 per ton	100
	$1,379

In the statement of sales I find the following accounted for:—

Hay, all kinds	$319 85
Wheat	184 00
Damaged wheat	50 00
Straw	69 05
	$622 90

Please let me known what became of the balance of the crop.

Enclosed herewith is a statement of revenue and expenditure by months, made up from the return, as follows:—

Revenue, July, 1908, to February, 1910	$2,640 27
Expenditure, July, 1908, to February, 1910	1,911 10
Balance as per deposit receipt No. 3969	729 17

The expenditure is made principally of labour and team hire, but there is not a single voucher in support thereof.

Monthly statements should have been furnished of this account and the gross revenue deposited to the credit of the Receiver General.

I have to inquire if there was any revenue from this source since this account was rendered, and if not, what disposition was made of the ladders, tools, &c., purchased?

There is no evidence to show that this account has been examined in your department.

I am, sir, your obedient servant,

The Deputy Minister of Militia and Defence. J. FRASER, *A.G.*

Dept. of Militia and Defence, Ottawa, January 18, 1911.

Sir,—With reference to your letter of December 10, ultimo, respecting the proceeds from the sale of crops, &c., from the camp grounds, Niagara, I have the honour to inclose, herewith, copy of a report from the Quartermaster-General, which I trust will furnish you with the information you require.

I am, sir, your obedient servant,

The Auditor General. EUG. FISET, *D.M. M. & D.*

Ottawa, January 5, 1911.

Dealing with the Auditor General's letter:—

1. William Noble was engaged as farm manager June 25, 1908, (folio 10) by agreement under seal.

2. He was instructed to reap and market all crops to the best advantage, accounting for all moneys received to the General Officer Commanding Western Ontario Command, and to perform such acts as a careful farm manager should.

3. The said Noble carried on the duties of manager, accounting month by month to the nominee of the General Officer Commanding Western Ontario Command, who checked the accounts with his farm books. The balance on hand on February 5, 1910, when all accounts and vouchers were sent to the General Officer Commanding the Western Ontario Command, was $729.17.

The farm accounts were at that time correct as far as the nominee of the General Officer Commanding the Western Ontario Command could check with the books of the farm manager.

4. At the time of the return of these books and papers to the General Officer Commanding, on February 7, 1910, the senior ordnance officer stated that positive

instructions had been given Noble that all dealings with the lands in any way must be after consultation with the office of the General Officer Commanding.

5. The hay and straw were used in camp Niagara, 1909, for horses in training there.

6. The ladders, tools, &c., purchased are on the property and are in use from year to year.

The Deputy Minister. (Sgd.) D. A. MACDONALD, *Q.M.G.*

AUDIT OFFICE, OTTAWA, January 24, 1911.

SIR,—I beg to acknowledge the receipt of your letter of the 18th instant, in reply to mine of December 10, with reference to sales of crops from the Lakeshore property, Niagara.

In the memorandum of D. A. Macdonald, Q.M.G., which accompanied your letter it is stated that Mr. Noble was engaged as farm manager June 25, 1908, and was instructed to reap and market all crops. In the 5th paragraph the memo. states that the hay and straw were used in camp Niagara, 1909, for horses in training there. That being the case, the value of the hay and straw so used, viz., $756, should have been charged to annual drill and credited to militia revenue.

Section 37 of the Consolidated Revenue and Audit Act requires the gross revenue to be deposited to the credit of the Receiver General.

You did not reply to my inquiry as to whether there was any revenue from the property since the account was rendered in February last, but you say that the ladders and tools are on the property and are in use from year to year. Therefore it is assumed that the crops are being reaped and marketed as before. Please let me know if any steps have been taken to have this revenue brought to account.

I am, sir, your obedient servant,

The Deputy Minister of Militia and Defence. J. FRASER, *A.G.*

DEPT. OF MILITIA AND DEFENCE, OTTAWA, February 21, 1911.

SIR,—I have the honour to acknowledge receipt of yours of the 24th ult., respecting revenue from Niagara camp grounds, and in reply to say that a statement to January 31, 1911, has been received, together with a deposit receipt for $225.71.

Instructions have been issued to the Officer Commanding Western Ontario to the effect that from April 1 next, monthly statements of account are to be rendered and that the gross revenue of the grounds is to be deposited to credit of Receiver General on militia revenue account.

I am, sir, your obedient servant,

The Auditor General. EUG. FISET, *D.M. M. & D.*
